## TURKEY WELCOMES YOU...

Turkey is the cradle of cultures and civilizations connecting Europe and Asia and capital of civilizations that have reined the lands of Anatolia for centuries.

Turkey is one of the countries which has lands both in Asia and Europe. This enables Turkey to reflect diverse cultures and experiences. Its cultural richness and diversity was shaped by its deep historical roots, cultures and beliefs in Middle East, Anatolia and Balkans.

### ABOUT ISTANBUL

Istanbul is the only city in the world that connects two continents. The city, which is located in both Asia and Europe, has been the capital city for many civilizations for thousands of years throughout its history.

Located on both sides of the Bosphorus, the narrow strait between the Black Sea and the Marmara Sea, Istanbul bridges Asia and Europe both physically and culturally. The population of Istanbul is estimated to be between 15 and 18 million people, making it also one of the largest in Europe and the world. Istanbul, representing the Asian city nearest Europe and the European city closest to Asia, is a leading port whose importance is stressed by the age-old trade routes passing through the Bosphorus. Throughout its history, Istanbul has maintained its position as the heart of the economy. The city today is the backbone of Turkey's economy.

With its long history at the center of empires, Istanbul offers a wealth of historic and religious places to take in. The bulk of these ancient monuments, dating back to Roman, Byzantine, and Ottoman periods, including the Hagia Sophia, Topkapı Palace, Sultanahmet Mosque (Blue Mosque), and Basilica Cistern are located around Sultanahmet Square, while some others are dispersed throughout the peninsula of old city.

As well as being one of the most attractive city to visit, Istanbul is now becoming a higher education destination for international students.
